

## Literacy - Monday 6<sup>th</sup> July

Using playing card planning create your own narrative. This is a unique opportunity to plan your own story from beginning to end. Use the playing cards, approximately 10 of them to draw your story in picture form. Each playing card will form a paragraph. Once you have your story in picture form play around with the order of the cards to see how you can vary the beginning. Once you are happy with the story order then you can number them.
