

If you would like to pop your information into school through the letter box or email it into school Mrs Whitehurst, Mrs Harrison and I would love to see them. For those of you going up to a new class you could write extra information about yourself especially thoughts about what you might be nervous about so that your new teachers can think how best to help you .

If you are staying with your teacher maybe you could tell them what you have been doing whilst you have been at home or what you have planned for the summer holidays.
