

Pictograms

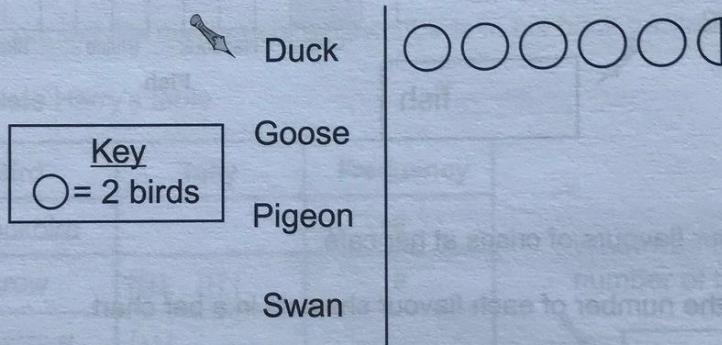

1

Noah counted the different birds he spotted at the park.

He put his data into a table.

Type of bird	Number of birds
Duck	11
Goose	6
Pigeon	14
Swan	5

Use the data from the table to complete the pictogram.

Noah added $4\frac{1}{2}$ circles to the pictogram to show how many starlings he saw.
How many starlings did he see?

Theo says he spotted 17 pigeons at the park.
How many circles would this be on the pictogram?
