

Interpreting Tables and Charts

1

Rex counted the number of different animals at the county fair.

He put his results into a bar chart.

How many pigs were there?

pigs

How many more sheep than goats were there?

2

The pictogram shows the number of girls in different years in a school.

Year 3 ○○○○○○

Year 4 ○○○○

Year 5 ○○○○

Year 6 ○○○○○○

Key ○ = 4 girls

How many girls are there altogether in years 3, 4, 5 and 6?

girls

How many fewer girls are in Year 4 than Year 6?

girls

"I can answer questions using information from tables, bar charts and pictograms."
