

What is it like to live in different Biomes to ours?

Now you know the Biomes of a few countries choose one that is different to our own and do some research. If you have family and friends abroad now would be a good time to send a quick email.

Can you design a questionnaire to find out how they tailor their lives to the conditions of their biome? Send it off to someone you know. If that's tricky collect pictures and do your own research or use this link about Florida <https://www.bbc.co.uk/bitesize/topics/z3fyedm/articles/zrg3qp3>

Find out about :

What type of clothes do people wear there? Cool cotton or warm wool?

How are houses different to ours? Do they have flat roofs as it hardly rains? Do they have cool floor tiles or warm fires?

What do local farmers farm and grow? Are there only a few animals like goats as the ground is dry and nothing much grows? Is it lovely and hot and exotic fruit can be grown?

What are local shops like? Are there outdoor markets or huge air conditioned shopping centres?
