

## Totem Poles from North America

Look at the website <https://www.dkfindout.com/uk/history/native-americans/totem-poles/>

And these pictures below, the are totem poles from North America, a Grassland Biome, can you tell which is a real totem pole? The others were inspired by the real thing. Go and design your own totem pole then why not build one, a 3D pole, add all your favourite animals and think about what they mean to you and your family, you can use anything you like, lego, yogurt pots or even build it on minecraft?
