

Compare and Contrast

Aim: I can describe and understand key aspects of biomes.

A biome is a particular environment made up of animals and plants which are adapted to this environment.

Compare and contrast the two biomes. How are they different from each other?

Desert

Tropical Rainforest

	location	
	temperature	
	rainfall	
	People and animals	
	Worlds largest	

Answers

Close to the tropics	location	Close to the equator
50°C	temperature	30°C
Very little	rainfall	A lot
few	People and animals	Half the worlds species
Sahara desert	Worlds largest	Amazon rainforest
